

APPLICATION

- ☙ For greens, tees and hard worked grass
Heavy soils: 1.5 kg/100m² Standard rate: 2.5 kg/100m² Sand soils: up to 4 kg/100m²
- 🕒 Apply late Spring to Summer. Up to 12 weeks response at full rate
- ⚠️ Best applied using a fertiliser spreader. May be spread with sand fill or top-dressing if desired (blend with top-dressing or apply under top-dressing and brush in). Very low scorch risk, watering-in recommended. Do not apply during frosty conditions.

STORAGE

- Store in a cool, dry place out of direct sunlight. Not harmful to the environment when used in accordance with the label.

SAFETY

- Avoid contact with eyes or skin. Protective gloves and suitable work wear is recommended. If exposed wash thoroughly with water. Avoid inhalation. Respiratory protection is not required unless exposure level is likely to exceed OEL concentrations (e.g. in a confined space). Do not ingest. If swallowed drink plenty of water and seek medical aid.

DISPOSAL

- Sweep up spills to minimise dust/spread of material and dispose of through a water disposal contractor in accordance with local laws.

FERTILISER ANALYSIS

20%	Total Nitrogen (N) 0.7% as organic 6.7% as ammonical 0.8% as nitrate 11.8% as ureic (4.7% N as water insoluble)
1%	Total Phosphorous (P) 0.3% as water soluble 0.6% as citrate soluble 0.1% as insoluble
4%	Total Potassium (K) 0.7% as organic 3.3% as water soluble
12.9%	Total Sulphur (S) 0.1% as organic 12.8% as sulphate
6.4%	Total Calcium (Ca) as organic
2%	Total Magnesium (Mg) 0.2% as organic 1.8% as sulphate

PRODUCT OF AUSTRALIA

This Fertiliser is in the slightly acid to neutral range
