

APPLICATION

-  For outfields, fairways and hard worked grass
5-6kg/100m² each application
-  Apply at any time of year for up to 12 weeks nutrient release.
-  Apply more often on heavily worn areas
May be applied at half rates on lightly worked areas

STORAGE

- Store in a cool, dry place out of direct sunlight. Not harmful to the environment when used in accordance with the label.

SAFETY

- Avoid contact with eyes or skin. Protective gloves and suitable work wear is recommended. If exposed wash thoroughly with water.
Avoid inhalation. Respiratory protection is not required unless exposure level is likely to exceed OEL concentrations (e.g. in a confined space).
Do not ingest. If swallowed drink plenty of water and seek medical aid.

DISPOSAL

- Sweep up spills to minimise dust/spread of material and dispose of through a water disposal contractor in accordance with local laws.

FERTILISER ANALYSIS

6%	Total Nitrogen (N) 1.9% as organic 1.7% as ammonical 0.5% as nitrate 1.9% as ureic (0.4% N as water insoluble)
2%	Total Phosphorous (P) 0.4% as water soluble 1.3% as citrate soluble 0.3% as insoluble
4%	Total Potassium (K) 0.7% as organic 3.3% as water soluble
4.6%	Total Sulphur (S) 0.3% as organic 4.3% as sulphate
11.6%	Total Calcium (Ca) as organic
1.8%	Total Magnesium (Mg) as organic
0.4%	Total Iron (Fe) as organic
	PRODUCT OF AUSTRALIA

This Fertiliser is in the slightly acid to neutral range
