

BEST PROSPREADER II

Heavy Duty, Professional Spreader

Plastic Hopper Designed for longevity from durable plastic. Square rust proof hopper is corrosion resistant and not top heavy. Agitator inside hopper is designed to improve flow. Holding capacity approximately 36Kgs (80 pounds).

Spreader Settings Lock in 29 different settings. Every spreader, at a given setting, spread identical rates every time.

Heavy Duty Frame Finished in a long lasting, corrosion resistant, baked flat red epoxy enamel. Three way adjustable leg for height adjustment.

Pneumatic Tires With ball bearings on axle with grease fittings.

10-inch Wheels For easy spreader on rough ground and in tall grasses. Rims made from tough, rust proof, composite material.

Powerful Gears Large heavy duty metal gears with protective cover.

Cushioned Hand Grips ... Comfort and control.

Best Spreader Settings
