WATER RATE

### INSTANT GREEN-UP

GameDay Green® is patented formulation for application to turfgrass to give an instant natural deep green colour and condition the turf and soil at the same time. This product is designed to be sprayed onto the surface of the leaf and will remain there once dry. This is a very effective way of delivering environmentally friendly Humic Acid to turfgrass and green-up at the same time. Once colour has dissipated, the Humic Acids will remain to provide all the benefits of concentrated organic matter.

### SOIL CONDITIONER

Humic Acids are large organic molecules that have binding sites that will capture and store nutrients. The use of GameDay Green® will assist in the levels of humus in the profile and provide the flexibility required to grow quality turf.

Adding Humic Acids will increase the ionic exchange capacity of the sandy soils, buffer toxic salts, excessive pH ranges and stimulate biological activity resulting in root proliferation. GameDay Green® assists in overcoming stress conditions such as recovery from renovation.

### FERTILISER

GameDay Green® also contains Nitrogen and Iron to continue with the natural green up and quality aspects of turf grass management. This added nutrition makes GameDay Green® the best and most natural colorant on the market.

### APPLICATION PRECAUTIONS

1. Do not water in immediately after application.
2. Apply on fine day with no forecast of rain
3. Avoid contact with fences or other fixtures as staining may occur
4. If contact occurs simply hose off contaminated area with water straight after application.

### ANALYSIS:

ELEMENT		Present As	W/V%
NITROGEN	(N)	Urea	7.0
IRON	(Fe)	EDTA Chelate	0.5
HUMIC AND FULVIC ACIDS		Potassium Humates	12.0
WETTER / STICKER			0.1

### DIRECTIONS FOR USE:

APPLICATION	Rate	Notes
TURF COLORANT	0.5 - 1.0 L / 100 m <sup>2</sup>	
ORGANIC CONDITIONER	0.2 - 0.4 L / 100 m <sup>2</sup>	

### APPLICATION NOTES:

APPLICATION	Rate	Notes
TURF COLORANT	5 - 10 L water / 100 m <sup>2</sup>	
ORGANIC CONDITIONER	5 - 10 L water / 100 m <sup>2</sup>
