# Turf Master

3.35

1.7

1.6

Composted & processed poultry manure blended with  
10 % blood & bone

- The standard fines are blended with blood & bone to:
  - Improve the analysis
  - Increase slow release nitrogen and phosphate
  - Lock up the dust to assist with spreading
- Turf Master does go through spreaders
- Very uniform size

### Directions of use:

Spread 100 - 200 grams per square metre (1-2 tonnes per hectare),  
depending on soil conditions.

### **Analysis:**

Nitrogen (N)	<b>Total 3.35%</b>	Iron (Fe)	As poultry manure 1500mg/kg
Phosphorous (P)	<b>Total 1.7%</b>	Copper (Cu)	As poultry manure 86mg/kg
Potassium (K)	<b>Total 1.6%</b>	Zinc (Zn)	As poultry manure 400mg/kg
Calcium (Ca)	As poultry manure 2.5%	Boron (B)	As poultry manure 3mg/kg
Magnesium (Mg)	As poultry manure 0.48%	Manganese (Mn)	As poultry manure 4380mg/kg
Sulphur (S)	As poultry manure 0.42%	Molybdenum (Mo)	As poultry manure 8mg/kg

Poultry Manure Fines = 2 mm and less - Coarse material: 5%    Fine material: 95%
